

### 3 .FLOOD DONATION DRIVE – 14/11/2021

One of the most important things you can do on this earth is to let people know they are not alone. Due to heavy rains during the second week of November, most of the areas in Chennai were severely affected and people found it difficult to get their basic needs. We, the Rotaract Club of MIT not only work in good times but also in hard times. We distributed bread, biscuits, candles, sanitary pads, mosquito coils and water bottles to the needy. We distributed the essentials in our campus premises, also in and around Chrompet and Pallavaram. We were able to see hope in their faces that things will get back to normal so soon. We gave them the support that they are not alone and we are all together.
